Education

Indian Institute of Information Technology and Management, Gwalior — Gwalior, Madhya Pradesh
Bachelor of Technology in Computer Science and Engineering; ***CGPA: 7.23/10*** — *2020 – July 2024*

Cathedral College — Uttar Pradesh, Jhansi
High School; ***Final Percentage: 87.8%***

Experience

Tata Consultancy Services(Digital profile) - Financial Services Domain — June 2024 – Present
Software Engineer — Java, Spring Boot, Microservices, Oracle, PostGreSQL — *Gurgaon, India*

- **Owned** and **drove end-to-end** project delivery for **Sumitomo** over 2 years, **leading** a team in an **Agile Enviroment**, managing day-to-day operations, coordinating with stakeholders, and ensuring timely execution of project deliverables.
- Developed REST APIs for user registration, login, and user profile management, incorporating various **CRUD operations** for enhanced user experience.
- **Engineered** a Java utility to automate vulnerability analysis of **third-party dependencies**, **eliminating manual reviews** and boosting **risk compliance by 45%.**
- **Developed** a utility in Java using **FactoryDesign Pattern** for generating **CSV files** corresponding from database tables, which improved **efficiency by 90%**.

Achievements

- **Global Rank 2258(Top 7%)** over **25079** Candidates in LeetCode Biweekly Contest 125 and a contest rating of **1757** on **LeetCode.Leetcode Profile** : *Dushyant*
- Solved more than **1000+** coding problems on platforms such as **LeetCode**, **GeeksforGeeks (GFG)** and **Coding Ninjas** .
- Over **1400+ GitHub** contributions, featuring optimal algorithms on Trees, Graphs, and Dynamic Programming in my **Data Structures and Algorithms repository.Github** : ***Do check them out here***
- **Competitive Programming Contributor, AASF (IIITM)**: Contributed to the college **coding community** by setting and testing programming problems for club events and **weekly Junior Practice Sprints**, helping juniors strengthen their **algorithmic thinking and coding skills.**
- **Recognized** with **Star of the Month, Best Team, and Special Initiative Awards** for end-to-end project ownership, maintaining a **defect rate below 5%**, **mentoring peers**, **fostering teamwork**, and driving process improvements beyond assigned responsibilities.**Award Links** : *Star of the Month*: *Best Team Award*: *Special Initiative Award*

Projects

PeerForge—Peer Mentorship Marketplace | *Java, Spring Boot, React, TypeScript, PostgreSQL, Redis, JWT, Razorpay, AWS* | AWS Link
- **Built a platform for discovering mentors** by skill and managing learner and mentor profiles.
- **Implemented features like** mentor availability, session booking, in-session messaging, and **Razorpay payments.**
- **Added secure authentication, reviews, notifications, and role-based admin dashboards**

Innerly — Private Journaling App | *Java, Spring Boot, Redis, MongoDB, JavaScript, AWS(Amazon Web Services)* | AWS Link
- Built a **private journaling website** with **account signup** and tools to create, search, edit, and delete journals.
- **Secured** user accounts with **JWT authentication** and **BCrypt password hashing**
- **Deployed backend on AWS(Amazon Web Services)**; used Redis to cache weather data and support faster retrieval.

ExpenseTracker — Personal Finance Management App | *Java, Spring Boot, React, JavaScript, AWS, Docker*| AWS Link
- **Built** a full-stack app for **tracking personal expenses and managing monthly budgets**.
- **Implemented** secure, account-specific expense management with **category filtering** and **paginated records.**
- **Deployed on AWS** and added monthly budget status checks, spending summaries, and CSV export.

Technical Skills

Programming Languages: Java, C, C++, SQL, BASH

Back-end Tech: AWS Elastic Compute Cloud (EC2), AWS S3, AWS CloudFront, Spring Boot, Spring Web, JDBC, Spring Security, Hibernate, Redis, CronJobs, Docker, Railway, Postman, SMTP, LomBok, JUNIT, Mockito, SLF4J, SonarCloud

Databases: AWS Relational Database Service (Amazon RDS), Oracle, MongoDB, PostgreSQL, Flyway database migrations

Version Control: Git, GitHub

Core Subjects: Data Structure and Algorithms, Operating System, Computer Networks, Database Management System

Miscellaneous: Multithreading, Design Patterns, Low Level Design, Microservices, Agile, Competitive Programming, Problem Solving

Working Area: Financial Services, Trading, Asset Transfers, Risk Management, Trade Settlements
